I. Amerikai Fulbright ösztöndíjas fogadása – igényfelmérés

A korábbi évekhez hasonlóan, a Fulbright Bizottság idén is fel szeretné mérni, hogy milyen amerikai szakemberekre van szükségük a magyar intézményeknek a 2025-2026-os tanévben. Arra kérjük Önöket, hogy amennyiben intézményük/tanszékük szívesen fogadna Fulbright ösztöndíjas szakembert, úgy abban az esetben töltsék ki online a *'Fulbright University Request Form 2025-2026'* kérdőívet **2023. november 15-ig** ezen a [Linken](#). A programról bővebben [Itt](#) olvashatnak.

II. STOA Workshop: 'Future of space - the sustainable path'

Experts from different disciplines together with policy makers will discuss how to involve civil society on addressing space challenges to get people's understanding and support to an ambitious European space strategy. The conference will reflect on the importance of making the right technology choices, since rocket launches and re-entries, may have a significant impact on the upper atmosphere, thus on the global warming and ozone layer depletion. Space debris could hinder the future exploration and exploitation of terrestrial orbits, and the observation of the universe from earth could become impossible.

Date: **26 October 2023, 15:00-18:00 CET**. For more details and registration click [Here](#).

III. Advanced Materials for Industrial Leadership: Vision, Approaches and Expected Impacts

In her state of the union speech, President Von der Leyen indicated advanced materials for industrial leadership as one of the European Commission priorities' of 2024, and the European Commission is currently working on a related plan of action. This plan aims to foster collaboration between materials producers, users, research institutes, universities while aligning future priorities associated with advanced materials, and it is expected to be delivered in the first quarter of 2024.

What will be the approach? How can the initiative make a difference for the EU and the Member States? What will be the role of digitalization in this framework? How will the plan relate with the possible new Horizon Europe strategic partnership focused on Innovative Advanced Materials? These and other questions will be discussed during this online webinar.

Register [Here](#) before **30 October 2023 at 10:00**

Date: **30 October 2023, 15:15-16:15**

IV. Info session on Horizon Results Booster – steering research towards a strong societal impact

The info session will cover information about the services and include testimonials from those who have already benefited from Horizon Results Booster. During the event several topics will be discussed, such as identifying and creating the portfolio of R&I project results, helping projects from the portfolio to design and execute a portfolio dissemination plan and Assisting projects to improve their existing exploitation strategy and Business Plan Development (BPD) Services etc.

Date: **14 November 2023, 10:00 (GMT+01:00)**

V. Other upcoming events

- **Call for nominations of experts: negotiations of an international legally binding instrument on plastic pollution**

The ISC is now seeking nominations of experts from its members with the aim of strengthening the contribution of the scientific community to current negotiations and advance integrated knowledge and solutions. There will be constituting an expert group of around 15 members to engage in the negotiation process, as well as a pool of experts working on different aspects of plastic pollution to be able to respond to requests for scientific inputs from the United Nations and its Member States. We warmly invite you to nominate relevant experts from your network by **16 November** via this [Link](#).

- **Science Filmmaking workshop**

All ISC Member organizations are invited to participate in a one-day Science Filmmaking workshop on **1 April 2024** in the frame of the 2024 Ethnografilm Festival in Paris. The workshop aims to empower scientists to create short films highlighting their own research. Following the workshop, participants will work on creating a short film about their research throughout 2024 with the support and remote assistance by the workshop instructors. All films created will be screened at the 2025 Ethnografilm Festival. Nominate your interested scientist by **1 December**. More information [Here](#).

- **ISC Distinguished Lecture Series “ENERGY Sustainability for Net ZERO Radio Communications”**

On **28 November** at **14:00 UTC** will be held the next webinar in ISC Distinguished Lecture Series in the frame of the International Year of Basic Sciences for Sustainable Development featuring Professor Nuno Borges Carvalho from the Institute of Telecommunications, University of Aveiro, Portugal. You can register [Here](#).

VI. Open events and applications

Az alábbiakban új rovatként, táblázatos formában tájékoztatást adunk azon nyitott eseményekről és pályázatokról, melyek az előző hírlevelekben megjelentek.
